

Terry Lynch

Terry is in the Office of Technology Partnerships at NIST. He is responsible for commercial licensing of licensing NIST technologies, Cooperative Research and Development Agreements, and establishing productive relationships with U.S. industry. Terry serves as the Gaithersburg Lab Representative for FLC and is active on a number of committees at both the national and Mid-Atlantic Region level. Terry is a member of the Interagency Working Group on Technology. Prior to joining NIST Terry held a variety of positions in industry in research, engineering, business development and corporate venture capital. He has a B.S. in Chemical Engineering and an MBA.
