

Jack Yadvish

Jack Yadvish is the Deputy Director of NASA's Innovative Partnership Program. He has had several years of experience in commercial use of space, technology transfer, and SBIR/STTR programs at NASA. In particular, he has had significant experience in negotiating Space Act agreements directly with private entities regarding initiatives for the commercial development of space and privatization of government assets, as well as in providing comprehensive financial analyses of private sector initiatives. He has also served as a senior policy analyst, providing counsel to NASA top management regarding public-private partnerships, NASA sponsored commercial space centers, and business incubators. Mr. Yadvish is an electrical engineer, holds M.A. and M.Phil. degrees from Yale University in applied mathematics, and an M.B.A. in finance from Columbia University. He is also a Certified Public Accountant.
