

Hotter Partnership
Larry Triola, Naval Surface Warfare Center Dahlgren
Virginia Demonstration Project

The purpose of this partnership is to inspire middle-school students in science and mathematics by augmenting their curriculum with hands-on experiences. Scientists from Federal Labs combine with teachers in Stafford, King George and Spotsylvania Counties to enrich student experiences. The Naval Surface Warfare Center – Dahlgren Division provides program management via a cooperative agreement with the College of William & Mary Department of Education. The program's effectiveness is monitored by Virginia Tech through a Dahlgren contract. Started in 2004, this pilot program could possibly expand nation-wide.
